LinkedIn , GitHub

SUMMARY

A final-year Computer Science and Engineering student, with knowledge in programming, artificial intelligence, machine learning and interested in web development. Looking for a job opportunity to apply my technical knowledge, strengthen my problem-solving and teamwork skills and learn new technologies.

SKILLS

Languages: C++, C#, Python, JavaScript, SQL, R
Web Technologies: HTML5, CSS3, PHP, Laravel
Databases: MySQL, Microsoft SQL Server
Tools & Platforms: Git/GitHub, VS Code, Cisco Packet Tracer
Core Concepts: Data Structures & Algorithms, OOP, DBMS
AI/ML & Data: NumPy, Pandas, Scikit-learn, TensorFlow

PROJECTS

E-Health-Management-BD GitHub
Course Project | Java

- A medical platform to get doctors appointment, prescriptions, and upload reports to doctor.

Credify – Banking Solution GitHub
Course Project | C#, Microsoft SQL Server

- It is a online banking app. Where one can transfer funds, pay bills, apply for loan and do other banking stuffs online

FoodLink – A Food Sharing Platform GitHub
Course Project | PHP, JavaScript, CSS

- A food sharing platform where restaurants can post their food for free sharing with others.

Amusement Park GitHub
Course Project | C++

- A virtual amusement park environment with controllable rides, dynamic lighting, and free-roam camera movement.

EDUCATION

Bachelor of Science in Computer Science and Engineering
American International University - Bangladesh, Dhaka, Bangladesh

- *CGPA: 3.87 / 4.00* — *Jan 2023 – Present*

Higher Secondary Certificate - Science
BAF Shaheen College, Dhaka, Bangladesh

- *GPA: 5.00 / 5.00* — *Jul 2019 – Dec 2021*
